

Explore collaborative approaches and funding opportunities!

Research for Climate Solutions: Online Networking Mixer

Keynote Speakers:

Cheryl Gladu,

Ph.D., MBA | Researcher-in-Residence, Thompson Rivers University

Encouraging networking with potential mentors and research partners while promoting funding opportunities with TRU.

Contact: cgladu@tru.ca

James Gordon,

MA | Manager of Sustainability Programs, Thompson Rivers University

Bringing attention to information on funding opportunities:

1. Sustainability Grant Fund (on hold till next 2022-2023).
2. Sustainability Research Grant for Students (x2 at \$5000 each). Deadline Mar 31, 2022
3. Sustainability Research Grant for Faculty (x4 at \$5000 each). Deadline Mar 31, 2022
4. TRU Solar Table Design Competition (\$500). Deadline Feb 28, 2022

Contact: jgordon@tru.ca

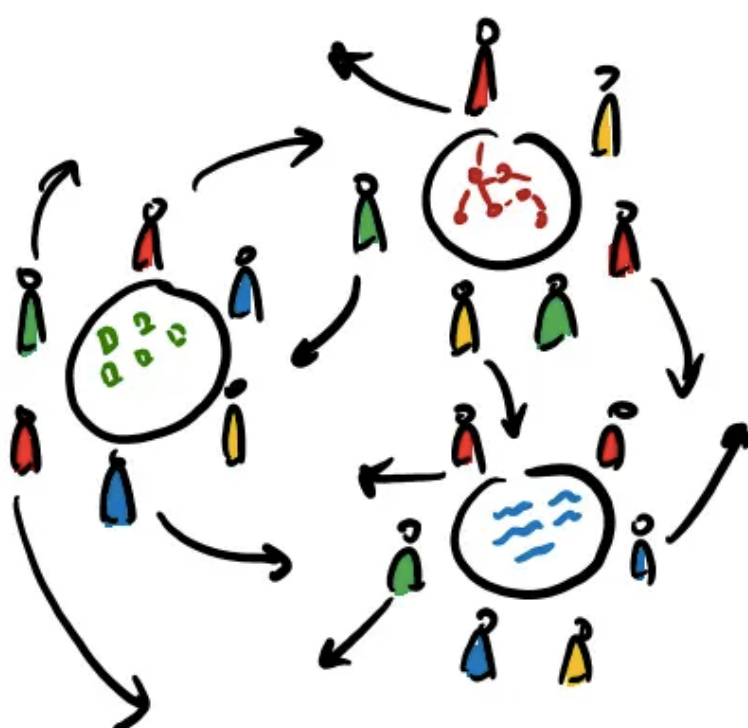

Josephine Howitt,

MA | Sustainability Program Coordinator, City of Kamloops

An overview of the City's Community Climate Action Plan including the 8 Big Moves.

- Sign up to the Sustainable Kamloops Newsletter at kamloops.ca/subscribe

Contact: jhowitt@kamloops.ca

Breakout Room Topics:

- Land Use & Transportation
- Energy & Buildings
- Zero Waste/Circular Economy
- Education & Community Engagement
- Urban Ecosystems

Hosted by TRU and co-developed with the City of Kamloops.

Canada's Tournament Capital

KAMLOOPS' 8 BIG MOVES

The Big Moves outline ambitious strategies that will have the biggest impact towards achieving our community's 80% emissions reduction by 2050 target.

1

BIG MOVE 1: **Low-Carbon Development**

Promoting compact, mixed-use development supported by sustainable transportation options.

2

BIG MOVE 2: **Car-Light Community**

Facilitating the increased uptake of walking, cycling, carpooling, and transit.

3

BIG MOVE 3: **Zero-Emissions Transportation**

Supporting zero-emission vehicle use.

4

BIG MOVE 4: **Zero-Carbon Homes & Buildings**

Ensuring all buildings maximize energy efficiency and use low-carbon energy sources.

5

BIG MOVE 5: **Zero-Waste/Circular Economy**

Enhancing waste reduction, diversion, upcycling, and reuse.

6

BIG MOVE 6: **Renewable Energy**

Supporting localized renewable energy production and use.

7

BIG MOVE 7: **Municipal Climate Leadership**

Taking the lead in shifting to zero-carbon facilities and fleets and applying a climate lens to planning and decision-making.

8

BIG MOVE 8: **Healthy Urban Ecosystem**

Preserving ecosystems and using green infrastructure to provide carbon sequestration and climate resilience.

Check it out!
